About Tall Oak Capital Advisors

Tall Oak Capital Advisors is a boutique investment manager based in London, Ontario Canada.

We work closely with our clients to understand all aspects of their finances. Our fully integrated approach begins with getting to know each client's unique challenges and goals, building a plan to reach those goals, and then executing the plan with precision.

Our Approach

The key to developing successful portfolios is correctly identifying **long-term structural investment themes** that align with the prevailing market and macroeconomic conditions.

Diversification matters. In a world where correlations between markets have converged yet continue to change, understanding how each security will react to different market forces leads to better risk-adjusted returns.

Having a deep **understanding of company fundamentals** is essential to finding businesses with stable cash flows, robust earnings power, and strong long-term growth prospects.

Capital preservation is of utmost importance. The priority is to avoid high-risk situations in the portfolio by adding safeguards to minimize loss.

Risk management at all levels – from portfolio construction to security selection – is key to building long-term resilient portfolios.

Taking a **collaborative approach** where knowledge and different viewpoints are shared, strengthens our insights when evaluating companies.

Investment Objective

To achieve long-term capital appreciation with a focus on diversification and downside protection by investing across asset classes in Canadian and Global companies with market cap exceeding \$500 million.

Investment Philosophy

The team employs a disciplined approach by combining a systematic, quantitative and fundamental selection process that favours quality companies with growing earnings, healthy free cash flows purchased at reasonable prices.

When building a balanced portfolio, the strategy will invest in a mix of fixed income and equities securities, diversified across various geographic regions, sectors and industries.
